[Portfolio](#) | [LinkedIn](#) | 204-801-3879 | dmytro.hk@gmail.com | Winnipeg, MB

EDUCATION

BComm (Hons), *Business Analytics, University of Manitoba, Asper School of Business*
Winnipeg, MB (Open to relocation)
Security Clearance: Reliability Status

Expected Graduation: April 2027

EXPERIENCE

Ciena | *Incoming Services Supplier Performance Management Intern*
Ottawa, ON

May 2026 – August 2026

Interac Corp | *Product Management Intern – Verification Strategy & Credentials*
Toronto, ON

September 2025 – December 2025

- Supported a Go-to-Market strategy for a QR-based identity product, mapping 10+ segments in an agile framework enabling iterative competitive analysis and supporting a \$30M+ revenue opportunity while reducing financial risk.
- Drove product positioning across 5 customer segments by centralizing market research, competitor briefs, and action items in Confluence, resulting in 4 high-impact feature enhancements and 7 critical market gap identifications.
- Aligned Marketing, Design, and Engineering teams by prioritizing 15+ user stories in Jira, prototyping user flows in Figma and running agile sprints, cutting requirement revisions by 20% and ensuring execution met the product strategy.

Government of Canada - Agriculture and Agri-Food Canada | *Data Analyst Intern*
Winnipeg, MB

May 2025 – August 2025

- Owned development and execution of an A/B test on a government program application form, optimizing layout and field structure to reduce friction and improve form completion rate by ~20% for government program applications.
- Automated a SharePoint-triggered Power Automate refresh pipeline for high volume dataflows with Teams alerts to track outcomes and notify output to team members; reduced failed runs 70% and saved ~5 manual hours per week.
- Built and visualized datasets of 200,000+ rows into Excel/Power BI dashboards, identifying regional productivity disparities that contributed to informed policy decisions with senior leadership across 3+ departments.

Apple Inc. | *Product Specialist*
Winnipeg, MB

October 2023 – April 2024

- Positioned Apple products to diverse customer segments through value propositions across daily interactions, increasing repeat purchases by 20% and contributing to over \$1M in store revenue through customer centric selling.
- Acted as a product advocate for Apple's hardware and software portfolio, tailoring on average 5+ mobile contracts to diverse customer segments across 30-40 daily interactions to drive purchase decisions and brand loyalty.
- Increased and maintained customer satisfaction score of 95% by diagnosing customer needs and recommending tailored product solutions, often presenting to groups to streamline product knowledge for a wider audience.

PROJECT EXPERIENCE

Copilot Credential (Microsoft) - UX & Product Case Study | *Personal Portfolio Website*
Winnipeg, MB

April 2026

- Created Product Case Study exploring Copilot integration into a SharePoint style Learning Management System, translating adoption barriers into clear UX decision criteria around scalability, usage depth, and engagement.
- Worked through complex constraints (enterprise security, institutional access, identity management) to evaluate tradeoffs and answer critical UX and product questions in a fast-paced, exploratory design process.

Director of Marketing | *University of Manitoba Marketing Association (UMMA)*
Winnipeg, MB

November 2023 – Present

- Analyzed U.S. Mondetta data using Python in Jupyter Notebook to clean regional sales and warehouse data across 12 datasets, identifying 3+ areas of underperformance and presenting solutions to representatives.
- Built a thriving digital community for @asperschool by executing a promotional strategy including 10+ informational graphics and videos, generating 52K views and growing to 5.8K followers within 4 months.
